

FatStacks™ Miami Cash™

Introduction

Introducing FatStacks™ Miami Cash™ - our hot 6x4 online slot with brand new FatStacks™ mechanics that creates more ways to win and innovative LuxPots™ Prize Ladder mechanics offering additional cash prizes!

Step 1: Getting Started

- Press the TOTAL BET button to increase or decrease the amount of your TOTAL BET. Select from the list of available stakes from the Total Bet options (depending on Operator configuration and currency equivalent).
- Press 'SPIN' to start the game.

Step 2: How To Play

- Press 'SPIN' to start the game (depending on jurisdiction and Operator configuration, Spacebar may also be used to start a game).
- The reels will spin and eventually stop at random.
- A win is matching consecutive symbols, regardless of size, from left to right starting from the leftmost reel, forming a sequence of 2 (depending on the symbol), 3, 4, 5, or 6 matching symbols.
- All winning combinations are added together.
- Only the highest win is paid per winning combination.

Wild Symbol

- The Wild symbol can appear anywhere on the reels 2, 3, 4, 5, and 6 and can be used to help form wins by substituting for other symbols excluding LuxPots™ symbols and Modifier symbols.

Cascading Symbols

- All winning symbols will cause a chain reaction.
- The winning symbols will be removed from the reels and replaced by new symbols coming from above the reels.
- Cascades will continue until no more winning combinations and no more FatStacks™ are possible.
- Winning LuxPots™ symbols cannot create cascades.

FatStacks™

- A win is matching consecutive symbols, regardless of size, from left to right starting from the leftmost reel, forming a sequence of 2 (depending on the symbol), 3, 4, 5, or 6 matching symbols.
- 2 to 3 identical single symbols on the same reel will consolidate into a double or a triple symbol (a FatStack™) to create more ways to win.
- 3 identical single symbols form the maximum FatStack™ size, a triple symbol. If there are other identical symbols on the reel, a new FatStack™ will form.
- Symbols consolidating into a FatStack™ will fall through any different symbols below and into the first identical symbol they meet. This triggers a cascade to fill the empty positions on the reel.
- 1 to 3 FatStacks™ can be formed on different positions within the same reel.
- LuxPots™ cannot form FatStacks™.

LuxPots™ Symbols

- Regular LuxPots™ can appear anywhere on the reels during the spin or a cascade and up to 4 on the same reel.
- Bonus LuxPots™ can appear anywhere on the reels during the spin or a cascade only in the main game and up to 4 per game round.
- 3 or more LuxPots™ anywhere on the reels award a cash prize according to the Prize Ladder.
- 10 LuxPots™ in one game round is the maximum and awards a top prize.
- LuxPots™ are collected until cascades are finished and paid out at the end of the spin after any other wins are awarded and all Modifiers are applied.

Modifier Symbols (Modifiers)

- Modifiers can appear anywhere on the reels (except for the Platinum Upgrade), modify the Prize Ladder and turn into regular LuxPots™.
- Shuffle - guaranteed to increase your current Prize Ladder value by swapping with a randomly chosen higher Prize Ladder value. Should the Prize Ladder be modified before the Shuffle appears, the new higher value will be taken from those upgraded values. Appears only in the main game.
- Upgrade - upgrades all Prize Ladder values to the rung above. A new higher value will be added for 10 LuxPots™. In the main game, moves the Bonus Chance label one rung down. Appears in the main game and in Free Games. In Free Games, it can land only once per Free Games session.
- Transform - transforms a random number of symbols (at the least, itself) on the reels, except for LuxPots™ and other Modifiers to regular LuxPots™, Upgrade Modifier, and/or Shuffle Modifier in the main game, and to regular LuxPots™ in Free Games.
- Merge - merges two adjacent rungs of the Prize Ladder to inherit the win value of the higher rung with the minimum and maximum range of LuxPots™ to reach it. Appears only in Free Games and only once per Free Games session.
- Platinum Upgrade - upgrades the Prize Ladder to the one with higher values at the beginning of Free Games. It can only be won in the Free Games Picker. A maximum of 2 can be won in any picker session.
- If the Merge happens before the Upgrade in Free Games, then during the Upgrade the rung below the merged rung will inherit the pre-merge value of the rung above.
- Modifiers will modify the Prize Ladder only after all the cascades are done and there are no more winning combinations on the screen.
- Only one Modifier of each type can appear on the reels during the main game spin or the Free Games session (except for the Transform Modifier which can appear on the reels on every spin in Free Games).
- The Prize Ladder modifications will reset at the beginning of each spin in the main game.

Free Games

- Triggering the Free Games Bonus requires at least 1 Bonus LuxPots™ symbol in view and for the total number of LuxPots™ symbols in view at the end of a spin to reach or exceed the value of the Prize Ladder rung containing the Bonus Chance label.
- The Bonus Chance label's starting position is always on the LuxPots™ 7 rung.
- For every subsequent Bonus LuxPots™ symbol in view, the Bonus Chance label moves one rung down, until the Bonus is triggered.
- Free Games start with the Free Games Picker.
- In the Free Games Picker, press each button until you get 3 matching values determining the number of Free Games (from 10 to 25).
- In Free Games, any modifications to the Prize Ladder from Upgrade, Merge, and/or Platinum Upgrade Modifiers will persist until the end of Free Games.
- Free Games continue until all Free Games are used, where the player is awarded the amount of the bonus winnings accumulated.
- Free Games cannot naturally be retriggered.
- Any Prize Ladder modifications will reset at the beginning of the Free Games Picker.

Free Games Bonus Buy (depending on Operator configuration)

- The Bonus Buy can be activated during the main game.
- Once activated, it will guarantee entry into the Bonus.
- The Bonus Buy consists of 3 options differing in volatility, number of Free Games (from 10 to 25), features, and cost.
 - X-Plusive Free Games (cost - 60 x bet)
 - DeLux Free Games (cost - 100 x bet)
 - DoubleLux™ Free Games (cost - 300 x bet)
- DoubleLux™ enabled Bonus Buys will award the player a second chance Free Games session if their win from the first round do not meet the advertised conditions. DoubleLux™ can award only one extra chance per purchase.
- In DoubleLux™ Free Games, even in the case of retrigger, any Prize Ladder modifications will persist until the end of DoubleLux™ Free Games.

Autoplay

- There is an Autoplay function in the game that will start each spin automatically. (Availability of Autoplay is subject to operator configuration and jurisdictional requirements.)
- By selecting 'AUTOPLAY' you can choose to bet automatically, one after the other.
- Select your stake as normal, then press the 'AUTOPLAY' button to select the number of 'Autoplay' bets you want to play.
(The following additional functions are also applicable depending on jurisdiction)
- Select your Loss Limit (maximum amount willing to lose for the autoplay session) and then press PLAY to begin your autoplays (other options are available).
- Auto Play will turn off if you get into any bonus round including Free Spins, if you reach the set Loss Limit or if a Progressive pot is awarded (where applicable).
- You can stop Auto Play from continuing onto the next spin by clicking the 'STOP' button.

Payout Information and Game Rules

- Payouts are multiplied by the stake.
- Base stake is defined as the amount required to initiate a standard game round. This excludes additional wagers such as side bets, mid-game wagers or bonus buys.
- **MALFUNCTION VOIDS ALL PLAYS AND PAYS.**
