

Funky Pharaoh™ Jackpot Royale

Step 1: Getting Started

1. Click the TOTAL BET button to increase or decrease the amount of your TOTAL BET. Select from the list of available stakes from the Total Bet options (depending on Operator configuration and currency equivalent).
2. Click 'SPIN' to start your game.

Step 2: How To Play

- Press 'SPIN' to start the game (depending on jurisdiction and Operator configuration, Spacebar may also be used to start a game).
- The reels will spin and eventually stop at random.
- If the combination of symbols appearing on the reels forms a line of 2, 3, 4 or 5 matching symbols (starting from the leftmost reel) on one of the win lines, then you win. Any winning lines you have will be highlighted and your winnings will be credited to your account balance.

Wild Symbol

- The Wild symbol can be used to help form line wins by substituting for other symbols (on reels 2, 3 and 4 only).
- Only the highest paying win on each line is paid (for example 3 wild symbols being a win or those symbols being used with another symbol to make a win of 4 symbols will only pay which of those two is the highest).

Funky Respins

- During any spin if a Funky Pharaoh Wild symbol lands fully in view on reels 2, 3 or 4, then the Respin feature is triggered.
- The Funky Pharaoh Wild will move 1 reel to the left everytime a respin occurs.
- After every respin, any wins in view will be awarded.
- The respin keeps occurring until no Funky Pharaohs are left in view.
- Everytime the Funky Pharaoh moves 1 reel position, the win multiplier will increase by 1.

Spin Boost (subject to operator configuration and jurisdictional requirements)

- During Spin Boost any Funky Pharaoh Wild symbols that land partially in view will nudge either up or down to fill the whole reel.
- They will also nudge either up or down during the Funky Respins when landing partially in view.

Jackpot Royale

- 5 Jackpot Royale overlay symbols on the reels triggers the Jackpot Royale Bonus.
- The Jackpot Royale Pot System is available on any stake on any game plugged into the Jackpot Royale System.
- Spin the reels to accumulate Jackpot Royale symbols to move up the win ladder. Achieve 15+ Jackpot Royale symbols to enter the Wheel King section of the feature.
- After any spin CHOOSE AN ICON to reveal one of the following outcomes:
- SPIN - spins the reels again, with any additional Crown symbols in view adding to the win ladder.
- COLLECT – ends the feature with the player being awarded a Bonus Win based on the multiplier of their Total Bet reached on the win ladder.
- WHEEL KING - reveal this to go directly into the Wheel King round of the feature.
- Achieving 15+ Jackpot Royale Symbols during the Jackpot Royale Bonus awards the Wheel King Bonus.
- The Wheel King Feature is a Tombola style Wheel consisting of Big Win Multiplier segments and Progressive pot segments.
- Spin the wheel to win either a Big Total Bet Multiplier or a Jackpot.
- NOTE - The Jackpot Royale Jackpots can only be won during the Wheel King part of the bonus.
- When a jackpot is won, it is reset to the Reserve amount and begins to rise again.
- The chances of winning a jackpot increases based on the Jackpot value until the jackpot is won
- Simultaneous jackpot wins cannot occur. Should two players appear to win the jackpot at the same time the first player to trigger the jackpot will win the whole jackpot amount, the second player would win the reserve pot plus any further contributions made.
- In the event of a communication error after a pot win result has been determined and before it has been displayed on screen, the win amount will automatically be transferred to the player's account.
- While the game is live, the jackpot cannot be terminated. If the game is removed, the outstanding pool amount can be transferred to another jackpot.
- Jackpots are funded by contributions from the player's stake except for the initial seeds which are funded by the Operator.

Auto Play (subject to operator configuration and jurisdictional requirements)
