## Bonus Activation

The player enters the bonus by achieving 3 or more bonus symbols anywhere in view. There is no payout awarded directly for getting this, just entry to one of the bonus rounds.

The player will spin the wheel, which after a spin will stop on one of 6 features, revealing the bonus that has been awarded.

### Booby Trap Bonus

Triggered by landing on the Booby Trap feature during the Bonus.

Turn the Key left or right (alternatively, click the left or right arrow) to turn the key and reveal an outcome: CASH (adds a cash amount between 1x - 20x total bet); COLLECT (ends the feature); BONUS FEATURE (reveals the name of a bonus which is awarded to the player).

If a feature is revealed the Booby Trap Bonus ends and the player enters the bonus feature shown.

If COLLECT is revealed, the feature ends with the player awarded the amount displayed in the Bonus Win display (which is a multiplier

of the player's Total Bet).

### **Waterslide To Wealth Bonus**

Triggered by landing on the Waterslide To Wealth feature during the Bonus.

The bonus shall be split into two stages; Stage 1 is a multiplier trail down the waterfall towards the second stage of the bonus.

The player always begins in stage 1 and is required to select gold doubloons in order to advance along the trail increasing the total bet multiplier. Selecting the doubloons will reveal one of the following positive or negative outcomes:-

<b>Event</b>	<b>Action</b>
Advance 1, 2, 3, 4 or 5	Will move the player along the trail by the corresponding number of positions.
Collect	Ends the bonus and pays the current total bet multiplier.
Big Money	Takes the player straight into the Big Money bonus round.

In addition, along the trail there will be certain positions containing a ship's wheel icon, which will be sat under some of the values. If the player lands on a position with a wheel, the ship's wheel will appear and spin, revealing one of the following:

- Upgrade: Increases some of the values along the trail.
- Eliminate: Knocks out some of the values on the trail, increasing the chances of getting to the end of the trail.
- Shortcut: This boosts the player further down the trail.

If the Big Money Bonus end game is reached, the player enters the big money end game where the player can win a big cash multiplier or an extra feature.

### **Skeleton Organ Free Spins**

Triggered by landing on the Skeleton Organ Free Spins feature during the Bonus.

The player will be awarded 5 spins with the special Skeleton Organ symbol active and super stacked on each reel.

The Skeleton Organ symbol is sticky, with any that land in view holding in place for the remainder of free spins.

If on any spin a special Symbol lands in view, the player will pick a key on the Organ which will fade up slightly from behind the reels to reveal a symbol, which will then reveal itself on every Organ symbol in view.

At the end of the spins the player will be presented with a number of Gold Doubloons. The player will pick one and reveal one of the following outcomes:

- EXTRA SPINS - Awards up to 5 extra spins with the mystery symbol remaining sticky from the initial spins.
- BONUS - Awards a bonus based on the feature name revealed.

The player will be awarded an initial 8 Spins which features resurrecting respins at the end of the feature.

If during a spin a Super Sloth Wild has landed in view, after any wins have been paid, the Wild will leave the position on the reels with a special border around it.

After the initial 8 spins are spent, a final respin will take place on all positions where Super Sloth Wilds landed in view.

Each individual reel position will respin to reveal either a Wild or Cash symbol (Cash symbol outcomes range from 1x - 10x Total Bet).

If 5 or more cash symbols are revealed, after any reel wins are awarded then Momma Fratelli Money Spins are triggered. Each reel position turns into a mini Cash reel where the player has 3 respins to achieve more Cash symbols. Each time a Cash symbol lands in view the Spins reset to 3. This continues until the player uses all of their spins (Cash symbol outcomes during the respin range from 1x - 50x Total Bet).

At the end of the spins the player will be presented with a number of keys. The player will pick one and reveal one of the following

outcomes:

- EXTRA SPINS - Awards up to 3 extra spins with special borders held on the reels based on the final outcome from the initial 8 spins.

After a screen transition, the game will cut to a new free spins layout with a trail below the reels with the inferno on the left, various markers across the bottom and a Gold Doubloon on the right.

During every spin the Inferno wild is active. Starting from the left, on each spin the Inferno Wild will move 1 reel right before holding in place. At the end of each spin, the Goonie below the reel where the wild is in place will be turned wild, before the Inferno Wild moves right again.

This continues until all of the high pays are upgraded to be wilds and the player reaches the Doubloon on reel 5.

Once the Doubloon has been reached, a number of Doubloons will appear over the reels and the player will be prompted to PICK A DOUBLOON, revealing one of the following outcomes:

- COLLECT – ends the feature with the player achieving the amount displayed in the BONUS WINNINGS panel.

The values will spin and then come to a stop awarding the corresponding total bet multiplier. The feature continues until the booby trap is triggered on the scales, where the player is awarded their total bet multiplier win.

The player will be awarded 3 Money Spins on a 5x4 grid of individual reels. Landing a cash value in view will reset the spins counter back to 3.

Also active are the Goonie characters, each with a unique power/ability as well as a cash value attached:

- Mikey: Awards an overall win multiplier (x2-x5).
- Data: Awards an extra respin, increasing the number of spins by 1.
- Chunk: Does his classic Truffle Shuffle, upgrades every symbol in view by the amount he displays when he lands in.
- Mouth: Adds together all current winning values on the reels to create a Super Money win (for example if all symbols in view made a total of 100x bet, the Mouth symbol would be worth 100x bet).
- One-Eyed Willy: Enlarges the size of the reels by one column on the left or right which can go up to 9x4.
- Sloth: Restarts the powers of any other character symbol in view (excluding Sloth).

The feature will continue until the whole 9x4 grid is full or all spins are used, with the player being awarded the amount displayed which is a multiplier of total bet.

## Feature Gamble

Whenever a Feature win is achieved in the game (except for One-Eyed Willy Riches Bonus), the player has the option to either COLLECT the feature or Gamble to try and win one of the other features in the game.

If the player gambles and wins, the feature they have gambled to can be collected, with all features below that now eliminated. This continues until the player collects, reaches the top feature (where it awards that feature) or the player lands on the Mystery Win segment during the wheel spin where they are then awarded a Mystery Win Prize (a mystery cash value based on a multiplier of the player's total bet. 5x-35x bet).

Bonus Respin - If the player gambles and lands on Mystery Win there is a chance the wheel will spin again.

Super Gamble - If the player gambles, there is the chance all the Mystery Win positions will be upgraded to become feature positions.

The odds of winning during the gamble feature are not necessarily the odds shown.

## One-Eyed Willy Exchange

During the main game, if the player achieves a win above a 15xbet or higher, the player can take the win or enter the feature wheel gamble to try and win a feature.

If the player chooses to COLLECT they are awarded the cash amount shown. If they choose to GAMBLE then the win is replaced by a spin of the Exchange wheel. The wheel will consist of one of three bonus levels (Bonus, Super Bonus or Mega Bonus depending on the

cash award being exchanged) plus Mystery Win.

If the player gambles and wins, the bonus they have gambled to can be collected. This continues until the player collects, reaches the top bonus (where it awards that bonus) or the player lands on the Mystery Win segment during the wheel spin where they are then awarded a Mystery Win Prize (a mystery cash value based on a multiplier of the player's total bet. 5x-15xbet).
